When considering or shopping for an alarm service, protect yourself by only dealing with a reputable company that is a member of the AAGSL

CONSUMER ALERT

Be wary of anyone coming to your door that is offering to upgrade your alarm system or the person tells you that they are taking over the service from your current alarm company. There are several out of state scam companies operating in the St. Louis area and they have door to door marketers scamming customers into switching their alarm service and getting them to sign a new contract which is often way over priced.

**Do not sign anything!
Call your alarm company and let them know.**
